b. The photos sent in by [REDACTED] are available, however, 25X1A9a they cover only the border between the American Sector and the Soviet Sector and between the American Sector and the Soviet Zone. No such coverage is available for the borders between the French and British contacts with either the Soviet Zone or the Soviet Sector.

c. The study of VoPo deployment may be quite useful in answering questions along this line.

d. Although we feel that the data on the Soviet Sector-Soviet Zone border may provide important indicators, we understand the difficulty in obtaining the data and realize that the contacts made with [REDACTED], [REDACTED] and G-2 may be all that is possible.
